

The welfare system is on both good and bad it seems. It is laid out to be a help and move the society forward but with a majority of irresponsible citizens the whole machinery is collapsing faster by the hour. A lot of money goes to waist to laziness that otherwise could have been productive manpower for a future that the current inhabitants regrettably neglect. The measurement of that neglect is how much the present population is borrowing from the futures natural resources.

Welfare including dignity

Systems based on free money create apathy and carves out self-esteem and replacing it with laziness. Mandatory job opportunity to produce wood toys, garden furniture, pillows, clay dishes, and kitchen utensils etc. with a weekly paycheck to cover rent and food makes for a healthy persist in search for a desired job. Fortune citizens have to purchase some items every year from this program to maintain it from outside politics. Alternative is also given for public landscaping, child care, traveling companion for senior citizens and other needs for care in homes or institutions. A grant system promoting generosity toward less fortune community members that by participating in private and state programs that gives them a chance to trade their skills for bed & breakfast. Financial institutes are to double their savings and by that receiving them as a lifelong customer.

Interacting office for “Club of Kings“

Offices with easy urban access to give instant help by a rotation list of professional members webbed in with Rotary International, Elks Lodges and other existing lodges. To give justice and lawfulness question almost an instantaneous answer. Create an “Idea Carousel” data base to establish a direct line to the national patent bureau, monitored by engineers, to set up an official pre-numbered page while in waiting line for later official handling. That gives the inventor quicker maneuverability in a data base of manufactures-distributors-retail. Selection and file method will be based on the international custom code. Picture of every coded item helps describing archive.

Social equality and to count in the coral

Citizens’ rights to vote should be made by annual fulfillment co-signed by “Club of Kings” with state of the art fire wall precautions. A voting routine for regional and state has to be established with a reciprocal link that will cutting down procedure and interact faster for a quicker forward result. Requirement for fulfillment is social volunteering 12 times a year with youth programs, elderly care etc. It is a minimum to ask for. To choose were your local taxes goes to on a chart for maintenance and priorities for new investments guaranties involvement. Personal web site like Facebook should be used to write a life time personal and social interacted diary that will be locked in storage decades after death. Its purpose is for research and statistics, to give spiritual science with recognition of incarnation a chance to be studied.

Democracy - If you are not concerned with your community why should they listen to you..?

It is up to anyone to treat and monitor their physical health and mental awareness. There are libraries and Wikipedia on the Net to use as search tools. When you cannot see your feet it should tell any sensible mind that a different diet and training is the right menu. A good start is to overview the habits and respects your given gift of life, eternal or not.

Addiction is controlled moderation gone wrong

Is simply described as an object you have to carry with you all the time. No matter how short the stroll is or where your destination is. So when you have cigarettes & pipes, muffins, cans & bottles, small drug containers or tiny plastic bags etc. with you this is an addiction. You have to get rid of it to leave the road to early death and live a life your brain and body is design for. Step-down treatment with other in the same boat makes rehabilitation and abstinence more bearable. Sharing homes strengthen willpower, avoids loneliness and tightens temptation. Workshops and schooling with medication open doors to integration.

Mandatory self-education

What is described as the 7th day in Genesis when God is resting is when man can judge himself. To get there every individual have to evaluate themselves objectively. It can be described as to build a parallel image like a mannequin of applied good deeds based on observations that appeal to the highest consciousness. Without the luxury of comfort and glued on with no returning from the end decision. That makes for a life with solid unselfish principals.

A study of all of the theosophical and political ideologies described individually each on a paper hanging on a string hold up by a clothespin. Once a week they all will be turned around leaving the clothesline with a row of white papers to guide that days rules of discussions. Mankind has a long and interesting path to go based on these parameters.

For final interact completion mastering an instrument, painting in oil or acrylic, wood- or metalworking, clay shop etc. makes for a financial safety net. The less handy ones can settle for party magic or origami. This will have a soothing effect on nerves and mind. Collection of some sort is an understanding of tradition and historic value. Having a door open in the intellect for "Saving Resources" that applies to everything is of great value for development. A year of absenteeism half way through life to digest memories and sort them in order will clean up the tangled web in the minds processing. Practicing old professions such as black smith, boat building, farming, carpentry etc. gives perspective and also reconnects to the roots of the human mind.

Worship without a face

All beliefs are based on hearsay in a primitive past. A new scientific analyze across the field of faith will result in a newer and scrutinized higher truth. A change of the self-evident truth in history has been a proportional transformation in physical form like when the world went from flat to a sphere. The truth, especially the self-evident, is an ongoing metamorphosis. Praying is unselfish and a personal ritual without any outside directions. Monopolizing knowledge of God's will and attend is only followed by fools. Manifestation is always one step ahead and it takes an open mind to follow it. Salvation means that you change your way of living for good.

Abortion without aspects

To honor the life spark a couple has created they have to take responsibility. If they cannot provide a healthy environment with love and care or of defects in their blood or DNA, precautions should have been taken in the first place. If not so, an abortion is appreciated by the oncoming person. A life long suffering based on horrible defects and a miserable start is not on any ones wishing list. Since a spark is created by a couple to be, their destiny has changed, so human righteousness demands a responsibility with adoption by each one or together within 2-3 year. That is plenty of time to build a safe and stable home for the countless millions of suffering children.

Compliment to existing education

Preschool teaching traffic knowledge requires no explanation as being in habitat with elderly or grandparents. It's good for closing the generation gap and letting wisdom be inherited. 7 to 10 year - Teaching sign language along with the alphabet makes for broader acceptance and understanding. Summer camp brings camaraderie and shaping responsibility in a country nature without gadgets.

11 to 13 year - Dancing should be integrated with gymnastic to form a better youth behavior. So is also martial arts and self-defense to prevent rape or being bullied. Trips to museum's and historic sites should be done every semester. A half semester would go to an exchange student program to learn respect for other cultures. Volunteer work among elderly would be a reminder of preschool days. Every class has to pretend to be disables for a week that gives a more helpful tolerance for misfortune fellow humans later in life.

14 to 16 year – Craft shop both for wood/metal and sewing lays a foundation for repairing clothes. To stimulate form and shape, expression in clay and molding of various materials is also a gift for life. Student's hobbies will be put in the weekly schedule along with outdoor activities such as hiking and biking. That is the ultimate promoting for a healthier life. Food culture and cooking skills is a must for young adults getting their own homes and to avoid fast food calories.

17 to 20 year – As an alternative to armed force service an 8 - 12 months employment for community caretaking brings honor and respect too. Giving back gives an appreciation for educational opportunity and levels out conscience as well. Physical training in combat with weapon education secures a safe ride-a-long with police force patrol that gives a valuable experience. A month in a monastery with meditation and yoga makes a lifelong impression of patients and an insight in past human history. At the graduation comes a non-refundable time share for a secured lifelong vacation with alternative to sporadic trades with other time share locations. A stylish outfit for job search and interview appearance guaranties an equal opportunity regardless of domestic status.

Vacation attitude

Domestic recreation will lower national debt and make a valuable education in anthropology and it also would come in handy when interacting with foreign friends too. As the financial current situation is, every third year is not a debatable request for this. And a holiday in a third world country with some local part time help should make a visit expense double in value and make for a longer stay. Out of an average of 40 years of holidays a few untraditional ones is also beyond debatable requests, like making someone else's isolated life in a third world a small adventure.
