

# Tutelage

## Addiction is controlled moderation gone wrong

Is simply described as an object you have to carry with you all the time. No matter how short the stroll is or where your destination is. So when you have cigarettes & pipes, cans & bottles, small drug containers or tiny plastic bags etc. with you this is an addiction. You have to get rid of it to leave the road to early death and live a life your brain and body is design for. Step-down treatment with other in the same boat makes rehabilitation and abstinence more bearable. Sharing homes strengthen willpower, avoids loneliness and tightens temptation. Workshops and schooling with medication open doors to integration.

## Abortion without aspects

To honor the life spark a couple has created they have to take responsibility. If they cannot provide a healthy environment with love and care or of defects in their blood or DNA, precautions should have been taken in the first place. If not so, an abortion is appreciated by the oncoming person. A life long suffering based on horrible defects and a miserable start is not on any ones wishing list. Since a spark is created by a couple to be, their destiny has changed, so human righteousness demands a responsibility with adoption by each one or together within 2-3 year. That is plenty of time to build a safe and stable home for the countless millions of suffering children.

## Compliment to existing education

Preschool teaching traffic knowledge requires no explanation as being in habitat with elderly or grandparents. **7 to 10 year** - Teaching sign language along with the alphabet makes for broader acceptance and understanding. Summer camp brings camaraderie and shaping responsibility in a country nature without gadgets.

**11 to 13 year** - Dancing is integrated with gymnastic to form a better youth behavior. So is also martial arts and self-defense. Trips to museum's and historic sites are done every semester. A half semester goes to an exchange student program to learn respect for other cultures. Volunteer work among elderly as a reminder of preschool days and every class has to pretend to be disables for a week that gives a more helpful tolerance for misfortune fellow humans.

**14 to 16 year** - Craft shop both for wood/metal and sewing lays a foundation. To stimulate form and shape, expression in clay and molding of various materials is also a gift for life. Student's hobbies will be put in the weekly schedule along with outdoor activities such as hiking and biking. Food culture and cooking skills is a must for young adults getting own homes.

**17 to 20 year** - As an alternative to armed force service an 8 - 12 months employment for community caretaking brings honor and respect too. Giving back as an appreciation for educational opportunity levels out conscience. Physical training in combat with weapon education secures a safe ride-a-long with police force patrol that gives a valuable experience. A month in a monastery with meditation and yoga makes a lifelong impression of patients. At the end of duty come a non-refundable time share for a lifelong alternative as well as a stylish outfit for job search and interview appearance.

## Count in the coral

Personal web site like Facebook to write a life time personal- and social interacted diary that will be locked in storage decades after death. Its purpose is for research and statistics, to give spiritual science with recognition of incarnation a chance to be studied. Diary displays generosity toward less fortune community members by participating in private and state programs that gives them a chance to trade their skills for bed & breakfast. Financial institutes are to double their savings giving them a lifelong customer.

## Driving in traffic

The illusion that the technical advancement in new cars creating is a mental trap for an average person. They have to be made aware of that so they do not think they reached a genius intelligence level while sharing the road with others. A "Black Box" that the aviation using can easily be implemented with audio reminder in all cars. Rewarding caution drivers with slower speed and accident free driving an exceptional inexpensive insurance. All insurance shall be paid a year in advance and a tag to show street legally. In an accident, the driver that used a mobile phone shall be without the protection of what insurance provides. Driving skills in different conditions have to be relearned every 5 years for the common safety. Lapdog does not mean having your dog in your lap while driving because you are driving a potential canon ball.

## Interacting office for "Club of Kings"

A network of professional membership webbed in with Rotary International, Elks Lodges and other existing lodges. Offices with easy urban access give instant help by the professional networks rotation list. A practical and justice-lawfulness question gives almost an instantaneous answer. An "Idea Carousel" data base is established. It is a direct line to the national patent bureau, monitored by engineers, sets up an official pre-numbered page while in waiting line for later official handling. That gives the inventor quicker maneuverability in a data base of manufactures-distributors-retail. Selection and file method will be based on the international custom code. Picture of every coded item helps describing archive.

## Mandatory self-education

What is described as the 7<sup>th</sup> day in Genesis when God is resting is when man can judge himself. To get there every individual have to evaluate themselves objectively. It can be described as to build a parallel image like a mannequin of applied good deeds based on observations that appeal to the highest consciousness. Without the luxury of comfort and glued on with no returning from the end decision. That makes for a life with solid unselfish principals. A study of all of the theosophical and political ideologies described individually each on a paper hanging on a string hold up by a clothespin.

Once a week they all will be turned around leaving the clothesline with a row of white papers to guide that days rules of discussions. Mankind has a long and interesting path to go based on these parameters. For final interact completion mastering an instrument, painting in oil or acrylic, wood- or metalworking, clay shop etc. makes for a financial safety net. The less handy ones can settle for party magic or origami. This will have a soothing effect on nerves and mind. Collection of some sort is an understanding of tradition and historic value. Having a door open in the intellect for "Saving Resources" that applies to everything is of great value for development. A year of absenteeism half way through life to digest memories and sort them in order will clean up the tangled web in the minds processing. Practicing old professions such as black smith, boat building, farming, carpentry etc. gives perspective and also reconnects to the roots of the human mind.

### **Media of information**

Indoctrination and numbing hypnoses will not be a tool of information anymore. The needs dictate the production as oppose to today's strategy. An enlightened general population creates new types of messages and presentations as well as forums. Monitoring for foul language and profanities will be done, failure resulting in higher tax brackets. Clean air in broadcast benefits linguistic culture. For dishonest offers in cyber space a data base is created were disguised official purchases are made and products are tested by laboratories to filter out frauds and put them on an official alert list. Same goes for financial aids etc.

### **Nature's preservation**

The planets cycles dictate everything living on its surface, therefore glaciers melting and tropical forests vanishing is of the outmost priority. Roads that stretch around the world is recently being build in the Amazons, the future have a voice that overpowers the present deaf of profit. If no one hears it the planet will take victorious action. Warning signs is written in the smallest existences at the bottom of the chain in flora and fauna. Solution for forest fires lays in persistent searching of unconventional methods such as explosions creating vacuum. Industrial scale of desalination sea water will soon be a necessity. Develop botanic knowledge for medical purpose has to sidestep short term thinking. Reproducing human organ in animals, synthesized immune system and cloning stem cells. Interacting with behavior for example using fleas as vaccine carrier is another pathway. A human body is built to last more than 200 years so science has a long way yet with precision supplement.

### **Police force**

Deportation of unwelcome criminals will be given a soon to be expelled passport. Cash is provided by auction of possessions. Community caretakers as ride-a-long have rubber bullets and different kind of weapons for crowd control. Interrogations with psychics help are to be encouraged. Prof of record will show that. An overwhelming number of search personal on borders will compliment technological search and surveillance. That will also eliminate attack points for enforcements and give them more concentration on white collar crimes. A 3 months pardon for drug lords for them to invest in Club of Kings database "Idea Carousel" that takes them out of the crosshair. After that there is no mercy or lowering of sentence. Common sense has to be a beacon and for every new law ten old one will be erased for future simplicity.

### **Social equality**

Citizens' rights to vote are made by annual fulfillment co-signed by "Club of Kings" with fire wall precautions. A voting routine for regional and state has to be established with a reciprocal link that will cutting down procedure and interact faster for a quicker forward result. Requirement for fulfillment is social volunteering 12 times a year with youth programs, elderly care etc. it is a minimum to be asked for. Choose were your local taxes goes on a chart for maintenance and priorities for new investments.

*Democracy - If you are not concerned with your community why should they listen to you..?*

### **Sport and Olympic spirit**

By qualify to an Olympic event an ultimate victory is already made. Who have the best bio-rhythm wins, that's all. Drug tests are mandatory even to the road leading up to an Olympic qualification. It is in every nation's interest to stay behind a natural development. No national outfit has to have any advertising, is a matter of pride and proof of a non-bribeable commission. Olympic Games for the elite athletics are separated from the paralyzed ones by a common policy of protection from uncomfortable events. Although the handicapped athletics daily life has a much harder accessibility and more difficult obstacles to overcome than by the ones with the common policy. As for the spectator's point of view, if out of control, a game will be postponed and finished another day without them. In team sports double staffing of referees is necessary in playoffs along with technological surveillance and measurements. A direction for clean sportsmanship lays in punishment. Training peeve league and for sever behavior shuffling duty on farms is an effective tools. The responsibility as a raw model for children requires discretion and silence of sexual behavior.

### **Vacation attitude**

Domestic recreation will lower national debt and make a valuable education in anthropology. As the financial current situation is every third year is not a debatable request. A holiday in a third world country with some part time help should make a visit expense double in value and make for a longer stay. Out of an average of 40 years of holidays a few untraditional ones is also beyond debatable requests, like making someone else's isolated life a small adventure.

### **Welfare including dignity**

Systems based on free money create apathy and carves out self-esteem replacing it with laziness. Mandatory job opportunity to produce wood toys, garden furniture, pillows, clay dishes, and kitchen utensils etc. with a weekly paycheck to cover rent and food makes for a healthy persist in search for a desired job. Fortune citizens have to purchase some items every year from this program to maintain it outside politics. Alternative is also given for public landscaping, child care, traveling companion for senior citizens and other needs for care in homes or institutions.

## **Worship without a face**

All beliefs are based on hearsay in a primitive past. A new scientific analyze across the field of faith will result in a newer and scrutinized higher truth. A change of the self-evident truth in history has been a proportional transformation in physical form like when the world went from flat to a sphere. The truth, especially the self-evident, is an ongoing metamorphosis. Praying is unselfish and a personal ritual without any outside directions. Monopolizing knowledge of Gods will and attend is only followed by fools. Manifestation is always one step ahead and it takes an open mind to follow it.
